DR. M. F. COLBY,—Dear Sir.—Your rate of the 7th first, containing a regipe of your "Ani-Costive and Tonic Fills" was stuly received.

The ingredients and their propertions entering into their composition, in our opinion, indicate a judicious combination of crossolial agents, and the merit the formats certainly possesses in a scientific point of view it amply borne out by their happy effects in practice.

We have prescribed them frequently, and believe they are worthy the character you claim for the m. Inti-Costive and Anodone, at the same time importing ions and vigot to the digestive organs.

Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Palents, executed on liberal terms, and with dispatch mine the validity or utility of Putents or Inventions-and logal or other advice rendered in all matters touching the same. Copies of the claims of any Patent farnished by re-mitting con believ. Assignments recorded at Washington. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant cases to believe, and the prove, that as no other office of the kind are the charges for professional ser-vices so moderate. The immonse practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patonia.

to patents.

These, besides his extensive illurary of legal and mechanical works, and full accounts of patents granted in the United States and Enrope, reader him able, beyond question, to offer apperior facilities for obtaining Patents.
